- Owner and operator of Panago Pizza across the Kipling TTC subway station in Etobicoke, ON

PROJECTS

ASTERISK: Configured open-source code Asterisk on Linux servers to run as a PBX switch for Internet Telephony and sold it as Aujtel's initial product.

AUTONOMOUS MOBILE ROBOTICS: As part of a class with the same name, I built robots using various sensors and microcontrollers to do different tasks.

CHAT-APP: A simple non-blocking chat server built on Ruby, using CLI for Computer Networking class.

REAL ESTATE DATABASE: Working on creating a Rails web-app to show historical prices of sold houses in Toronto. Toronto Real Estate Board restricts access to data for non-realtors therefore site is still under-construction.

GOOD READS DATABASE: Flask and JavaScript based web-app that uses GoodRead.com API to check for real-time book ratings

PHOTOS SCANNER: A python script that checks for the number of .JPG, and .JPEG files on my laptop

POKER BOT: A project for my AI class, wherein my Java based bot plays one-on-one Badugi (a form of Poker) with another bot.

SCROOGE COIN: Java based silly rendition of a crypto-currency where central authority issues coins

SPECIAL INTERESTS

Languages: Urdu, Punjabi, English and Spanish (Intermediate-Advance)

University of Toronto-Mississauga Masters Swimming Club, Mississauga

Liberty Village Toastmasters Club, Toronto

Palmistry and Handwriting Analysis Expert
